

## Plug-in systems ECOLUXX I, IK, IN

### K

The fitting is equipped with 3-poles connector GESSIS recessed in a body. The basic version of fitting (labelled K) has 1 male connector. For a continuous assembly (through wiring) can be the fitting equipped with TT connector with 1 input (male) and 1 output (female) – this version is labelled 2K in the fitting code.

### F

The fitting is equipped with 2m flexible cord 3x1,5 mm<sup>2</sup> with standard plug. We can change the length of the cable or type of the plug (UK, WAGO, GESSIS,...) on request.

### KIT

Special version of recessed fittings with lamps and external connecting block (BJB box). This box enables to connect electricity cable from outside without connector. For clear louver are fittings covered by plastic.
